We post the following filings to our website at lpl.com as soon as reasonably practicable after they are electronically filed with or furnished to the SEC: our annual reports on Form 10-K, our proxy statements, our quarterly reports on Form 10-Q, our current reports on Form 8-K and any amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act. Copies of all such filings are available free of charge by request via email (investor.relations@lpl.com), telephone ((617) 897-4574) or mail (LPL Financial Investor Relations at 1055 LPL Way, Fort Mill, SC 29715). The information contained or incorporated on our website is not a part of this Quarterly Report on Form 10-Q.

We may use our website as a means of disclosing material information and for complying with our disclosure obligations under Regulation Fair Disclosure promulgated by the SEC. These disclosures are included on our website in the “Investor Relations” or “Press Releases” sections. Accordingly, investors should monitor these portions of our website in addition to following the Company’s press releases, SEC filings, public conference calls and webcasts.

When we use the terms “LPLFH”, “LPL”, “we”, “us”, “our” and “the Company”, we mean LPL Financial Holdings Inc., a Delaware corporation, and its consolidated subsidiaries, taken as a whole, unless the context otherwise indicates.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Statements in Part I, *Item 2. “Management’s Discussion and Analysis of Financial Condition and Results of Operations”* and other sections of this Quarterly Report on Form 10-Q regarding:

- the Company’s future financial and operating results, outlook, growth, plans, business strategies, liquidity and future share repurchases, including statements regarding future resolution of regulatory matters, legal proceedings and related costs;
- the Company’s future revenue and expense;
- future affiliation models and capabilities;
- the expected onboarding of advisors, institutions and assets in connection with our acquisition and recruitment activity;
- market and macroeconomic trends;
- projected savings and anticipated improvements to the Company’s operating model, services and technologies as a result of its investments, initiatives, programs and acquisitions; and
- any other statements that are not related to present facts or current conditions, or that are not purely historical, constitute forward-looking statements.

These forward-looking statements reflect the Company’s expectations and objectives as of November 1, 2022. The words “anticipates,” “believes,” “expects,” “may,” “plans,” “predicts,” “will” and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Forward-looking statements are not guarantees that the expectations or objectives expressed or implied by the Company will be achieved. The achievement of such expectations and objectives involves risks and uncertainties that may cause actual results, levels of activity or the timing of events to differ materially from the expressed or implied expectations of the forward-looking statements. Important factors that could cause or contribute to such differences include:

- changes in general economic and financial market conditions, including retail investor sentiment;
- changes in interest rates and fees payable by banks participating in the Company’s client cash programs, including the Company’s success in negotiating agreements with current or additional counterparties;
- the Company’s strategy and success in managing client cash program fees;
- fluctuations in the levels of advisory and brokerage assets, including net new assets, and the related impact on revenue;
- effects of competition in the financial services industry;
- the success of the Company in attracting and retaining financial advisors and institutions, and their ability to market financial products and services effectively;
- whether retail investors served by newly-recruited advisors choose to move their respective assets to new accounts at the Company;

- changes in growth and profitability of the Company's fee-based offerings;
- the effect of current, pending and future legislation, regulation and regulatory actions, including disciplinary actions imposed by federal and state regulators and self-regulatory organizations;
- the cost of settling and remediating issues related to regulatory matters or legal proceedings, including actual costs of reimbursing customers for losses in excess of our reserves;
- changes made to the Company's services and pricing, including in response to competitive developments and current, pending and future legislation, regulation and regulatory actions, and the effect that such changes may have on the Company's gross profit streams and costs;
- execution of the Company's capital management plans, including its compliance with the terms of the Company's amended and restated credit agreement ("Credit Agreement") and the indentures governing the Company's senior unsecured notes (the "Indentures");
- the price, the availability and trading volumes of shares of the Company's common stock, which will affect the timing and size of future share repurchases by the Company, if any;
- execution of the Company's plans and its success in realizing the synergies, expense savings, service improvements or efficiencies expected to result from its investments, initiatives and acquisitions, expense plans and technology initiatives;
- the performance of third-party service providers to which business processes have been transitioned;
- the Company's ability to control operating risks, information technology systems risks, cybersecurity risks and sourcing risks;
- the effects of the coronavirus disease 2019 ("COVID-19") pandemic, including efforts to contain it; and
- the other factors set forth in the Company's most recent Annual Report on Form 10-K, as may be amended or updated in the Company's Quarterly Reports on Form 10-Q.

Except as required by law, the Company specifically disclaims any obligation to update any forward-looking statements as a result of developments occurring after the date of this Quarterly Report on Form 10-Q, and you should not rely on statements contained herein as representing the Company's view as of any date subsequent to the date of this Quarterly Report on Form 10-Q.

RIA: Registered investment advisor.

Uniform Net Capital Rule: Refers to Rule 15c3-1 under the Securities Exchange Act of 1934, which specifies minimum capital requirements that are intended to ensure the general financial soundness and liquidity of broker-dealers.

PART I — FINANCIAL INFORMATION

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Business Overview

LPL serves the advisor-mediated advice marketplace as the nation’s largest independent broker-dealer, a leading investment advisory firm and a top custodian. We support more than 21,000 financial advisors, including advisors at approximately 1,100 institution-based investment programs and at approximately 500 registered investment advisor (“RIA”) firms nationwide, providing the front-, middle- and back-office support our clients need to serve the large and growing market for comprehensive financial advice from an advisor. We offer a customizable platform of integrated technology, brokerage and advisory platforms, digital capabilities, clearing and compliance services, business services, planning and advice services and strategic growth resources to help our clients run their perfect practices.

We are steadfast in our commitment to the advisor-centered model and the belief that investors deserve access to personalized guidance from a financial advisor. We believe advisors should have the freedom to manage their client relationships because they know their clients best. We believe investors achieve better outcomes when working with a financial advisor. We strive to make it easy for advisors to do what is best for their clients by promoting freedom and choice through access to a wide range of diligently evaluated non-proprietary products while protecting advisors and clients.

We believe that we are the only company that offers the unique combination of an integrated technology platform, comprehensive self-clearing services and access to a wide range of curated non-proprietary products, all delivered in an environment unencumbered by conflicts from product manufacturing, underwriting and market-making.

Our Sources of Revenue

Our revenue is derived primarily from fees and commissions from products and advisory services offered by our advisors to their clients, a substantial portion of which we pay out to our advisors, as well as fees we receive from our advisors for the use of our technology, custody, clearing, trust and reporting platforms. We also generate asset-based revenue through our insured bank sweep vehicles, money market sweep balances and the access we provide to a variety of product providers with the following product lines:

- Alternative Investments
- Annuities
- Exchange Traded Products
- Insurance Based Products
- Mutual Funds
- Retirement Plan Products
- Separately Managed Accounts
- Structured Products
- Unit Investment Trusts

Under our self-clearing platform, we custody the majority of client assets invested in these financial products, for which we provide statements, transaction processing and ongoing account management. In return for these services, mutual funds, insurance companies, banks and other financial product sponsors pay us fees based on asset levels or number of accounts managed. We also earn interest from margin loans made to our advisors’ clients, cash and equivalents segregated under federal or other regulations and loans made to our advisors, which is included in Interest income, net in the condensed consolidated statements of income. A portion of our revenue is not asset-based or correlated with the equity financial markets.

We regularly review various aspects of our operations and service offerings, including our policies, procedures and platforms, in response to marketplace developments. We seek to continuously improve and enhance aspects of our operations and service offerings in order to position our advisors for long-term growth and to align with competitive and regulatory developments. For example, we regularly review the structure and fees of our products and services, including related disclosures, in the context of the changing regulatory environment and competitive landscape for advisory and brokerage accounts.

Significant Events

Board of Directors approves a \$2 billion increase to the Company's existing share repurchase authorization beginning in 2023

On September 21, 2022, the Board of Directors authorized a \$2.1 billion increase to the amount available for repurchases of the Company's issued and outstanding common shares, with a portion to be used in the fourth quarter of 2022 and \$2 billion available for repurchases beginning in 2023. As of September 30, 2022, the Company had \$2.15 billion remaining under its existing share repurchase program.

Implemented client cash account ("CCA") as primary sweep overflow vehicle

During the third quarter, the Company implemented CCA, its cash product held at LPL Financial LLC, as the primary sweep overflow vehicle for funds in excess of capacity in its third-party sweep program. The Company places sweep overflow that cannot be allocated to its insured cash account ("ICA") product into the CCA. These deposits are either placed in third-party bank accounts or are invested in short-term U.S. treasury bills, both of which are segregated under federal or other regulations. Interest earned on these cash and equivalents is included in the Interest income, net line item on the Company's condensed consolidated statements of income.

Executive Summary

Financial Highlights

Results for the third quarter of 2022 included net income of \$232.3 million, or \$2.86 per diluted share, which compares to \$103.1 million, or \$1.26 per diluted share, for the third quarter of 2021.

(1) Totals may not foot due to rounding.

(2) Consists of total advisory and brokerage assets under custody at the Company's broker-dealer subsidiary, LPL Financial LLC ("LPL Financial"), and Waddell & Reed, LLC. As of September 30, 2022, there were no assets under custody at Waddell & Reed, LLC. Please consult the "Results of Operations" section for a tabular presentation of advisory and brokerage assets.

(3) Consists of total client deposits into advisory or brokerage accounts less total client withdrawals from advisory or brokerage accounts, plus dividends, plus interest, minus advisory fees. We consider conversions from and to brokerage or advisory accounts as deposits and withdrawals, respectively.

(4) Prior to Q4 2021, organic net new assets do not include the assets of Waddell & Reed, LLC.

(5) Calculated as annualized current period organic net new assets divided by preceding period assets in their respective categories of advisory assets or total advisory and brokerage assets. Prior to Q4 2021, organic net new assets growth rates do not include the assets of Waddell & Reed, LLC.

(6) During the second quarter of 2022, the Company updated its definition of client cash balances to include CCA and exclude purchased money market funds. CCA balances include cash that clients have deposited with LPL Financial that is included in Client payables in the condensed consolidated statements of financial condition. Prior period disclosures have been updated to reflect this change as applicable.

(7) Represents the amount of securities purchased less the amount of securities sold in client accounts custodied with LPL Financial.

(8) Calculated based on the end of period total advisory and brokerage assets divided by the end of period advisor count.

- (9) The leverage ratio is a financial metric from our Credit Agreement and is calculated by dividing Credit Agreement net debt, which equals consolidated total debt less Corporate Cash, by Credit Agreement EBITDA. Credit Agreement EBITDA, a non-GAAP measure, is defined by the Credit Agreement as "Consolidated EBITDA," which is Consolidated Net Income (as defined in the Credit Agreement) plus interest expense on borrowings, provision for income taxes, depreciation and amortization, and amortization of other intangibles, and is further adjusted to exclude certain non-cash charges and other adjustments (including unusual or non-recurring charges) and gains, and to include future expected cost savings, operating expense reductions or other synergies from certain transactions. Please consult the "Debt and Related Covenants" section for more information. - (10) EPS prior to amortization of intangible assets and acquisition costs is a non-GAAP financial measure defined as adjusted net income, a non-GAAP financial measure defined as net income plus the after-tax impact of amortization of other intangibles and acquisition costs, divided by the weighted average number of diluted shares outstanding for the applicable period. The Company presents adjusted net income and EPS prior to amortization of intangible assets and acquisition costs because management believes that these metrics can provide investors with useful insight into the Company's core operating performance by excluding non-cash items and acquisition costs that management does not believe impact the Company's ongoing operations. Adjusted net income and EPS prior to amortization of intangible assets and acquisition costs are not measures of the Company's financial performance under GAAP and should not be considered as alternatives to net income, earnings per diluted share or any other performance measure derived in accordance with GAAP. Below is a reconciliation of net income and earnings per diluted share to adjusted net income and EPS prior to amortization of intangible assets and acquisition costs for the periods presented (in millions, except per share data):

- (11) Gross profit is a non-GAAP financial measure defined as total revenue less advisory and commission expense and brokerage, clearing and exchange expense. All other expense categories, including depreciation and amortization of property and equipment and amortization of other intangibles, are considered by management to be general and administrative in nature. Because our gross profit amounts do not include any depreciation and amortization expense, we consider our gross profit amounts to be non-GAAP financial measures that may not be comparable to those of others in our industry. We believe that gross profit amounts can provide investors with useful insight into our core operating performance before indirect costs that are general and administrative in nature. Below is a calculation of gross profit for the periods presented (in millions):

Gross Profit	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Total revenue	\$ 2,163.1	\$ 2,020.8	\$ 6,267.6	\$ 5,626.6

Gross Profit^(†)	\$ 837.7	\$ 631.1	\$ 2,217.7	\$ 1,812.1

(†) Totals may not foot due to rounding.

- (12) EBITDA is a non-GAAP financial measure defined as net income plus interest expense on borrowings, provision for income taxes, depreciation and amortization, and amortization of other intangibles. The Company presents EBITDA because management believes that it can be a useful financial metric in understanding the Company's earnings from operations. EBITDA is not a measure of the Company's financial performance under GAAP and should not be considered as an alternative to net income or any other performance measure derived in accordance with GAAP. Below is a reconciliation of net income to EBITDA for the periods presented (in millions):

EBITDA Reconciliation	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Net income	\$ 232.3	\$ 103.1	\$ 526.6	\$ 351.8

EBITDA^(†)	\$ 414.2	\$ 225.0	\$ 992.2	\$ 711.6

(†) Totals may not foot due to rounding.

- (13) Core G&A is a non-GAAP financial measure defined as total expense less the following expenses: advisory and commission; depreciation and amortization; interest expense on borrowings; brokerage, clearing and exchange; amortization of other intangibles; loss on extinguishment of debt; promotional; acquisition costs; employee share-based compensation; and regulatory charges. Management presents core G&A because it believes core G&A reflects the corporate expense categories over which management can generally exercise a measure of control, compared with expense items over which management either cannot exercise control, such as advisory and commission expense, or which management views as promotional expense necessary to support advisor growth and retention, including conferences and transition assistance. Core G&A is not a measure of the Company's total expense as calculated in accordance with GAAP. Below is a reconciliation of the Company's total expense to core G&A for the periods presented (in millions):

Core G&A Reconciliation	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021

- (14) See the “*Liquidity and Capital Resources*” section for additional information about Corporate Cash.
- (15) M&A accretion is an adjustment to reflect the annualized expected run rate EBITDA of an acquisition as permitted by the Credit Agreement for up to eight fiscal quarters following the close of the transaction.
- (16) Acquisition costs include the costs to setup, onboard and integrate acquired entities. The below table summarizes the primary components of acquisition costs for the periods presented (in millions):

Acquisition costs	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Compensation and benefits	\$ 4.7	\$ 14.8	\$ 17.0	\$ 30.4

Acquisition costs	\$ 7.5	\$ 35.9	\$ 29.7	\$ 62.1

- (17) Promotional (ongoing) for the three and nine months ended September 30, 2022 includes \$4.4 million and \$12.5 million, respectively, of support costs related to full-time employees that are classified within Compensation and benefits expense in the condensed consolidated statements of income. Promotional (ongoing) for the three and nine months ended September 30, 2022 excludes \$0.3 million and \$2.2 million of expenses incurred as a result of acquisitions, which are included in the Acquisition costs line item.

Legal and Regulatory Matters

The financial services industry is subject to extensive regulation by U.S. federal, state and international government agencies as well as various self-regulatory organizations. We seek to participate in the development of significant rules and regulations that govern our industry. We have been investing in our compliance functions to monitor our adherence to the numerous legal and regulatory requirements applicable to our business. Compliance with all applicable laws and regulations involves a significant investment in time and resources. Any new laws or regulations applicable to our business, any changes to existing laws or regulations, or any changes to the interpretations or enforcement of those laws or regulations may affect our operations and/or financial condition.

As a regulated entity, we are subject to regulatory oversight and inquiries related to, among other items, our compliance and supervisory systems and procedures and other controls, as well as our disclosures, supervision and reporting. We review these items in the ordinary course of business in our effort to adhere to legal and regulatory requirements applicable to our operations. Nevertheless, additional regulation and enhanced regulatory enforcement has resulted, and may result in the future, in additional operational and compliance costs, as well as increased costs in the form of penalties and fines, investigatory and settlement costs, customer restitution and remediation related to regulatory matters. In the ordinary course of business, we periodically identify or become aware of purported inadequacies, deficiencies and other issues. It is our policy to evaluate these matters for potential legal or regulatory violations and other potential compliance issues. It is also our policy to self-report known violations and issues as required by applicable law and regulation. When deemed probable that matters may result in financial losses, we accrue for those losses based on an estimate of possible fines, customer restitution and losses related to the repurchase of sold securities and other losses, as applicable. Certain regulatory and other legal claims and losses may be covered through our wholly-owned captive insurance subsidiary, which is chartered with the insurance commissioner in the state of Tennessee.

Assessing the probability of a loss occurring and the timing and amount of any loss related to a regulatory matter or legal proceeding, whether or not covered by our captive insurance subsidiary, is inherently difficult and requires judgments based on a variety of factors and assumptions. There are particular uncertainties and complexities involved when assessing the adequacy of loss reserves for potential liabilities that are self-insured by our captive insurance subsidiary, which depends in part on historical claims experience, including the actual timing and costs of resolving matters that begin in one policy period and are resolved in a subsequent period.

Our accruals, including those established through our captive insurance subsidiary at September 30, 2022, include estimated costs for significant regulatory matters or legal proceedings, generally relating to the adequacy of our compliance and supervisory systems and procedures and other controls, for which we believe losses are both probable and reasonably estimable.

The outcome of regulatory or legal proceedings could result in legal liability, regulatory fines or monetary penalties in excess of our accruals and insurance, which could have a material adverse effect on our business, results of operations, cash flows or financial condition. For more information on management’s loss contingency policies, see Note 10 - *Commitments and Contingencies*, within the notes to the condensed consolidated financial statements.

Acquisitions, Integrations and Divestitures

We continuously assess the competitive landscape in connection with our capital allocation framework as we pursue acquisitions, integrations and divestitures. These activities are part of our overall growth strategy but can distort comparability when reviewing revenue and expense trends for periods presented. On April 30, 2021, we acquired the wealth management business of Waddell & Reed Financial, Inc. (“Waddell & Reed”). See Note 4 - *Acquisitions*, within the notes to the condensed consolidated financial statements for further detail.

Economic Overview and Impact of Financial Market Events

Our business is directly and indirectly sensitive to several macroeconomic factors and the state of the United States financial markets. According to the most recent estimate from the U.S. Bureau of Economic Analysis, the U.S. economy grew at an annualized pace of 2.6% in the third quarter of 2022 after contracting at an annualized pace of 0.6% in the second quarter of 2022. Despite the growth, the economy was negatively impacted by elevated inflation, reduced residential investment and financial instability in Europe.

Although inflation, rising borrowing costs and volatile currency markets were all headwinds, the U.S. economy added 1.1 million jobs in the third quarter of 2022, and the unemployment rate decreased from 3.6% in the second quarter to 3.5% in September of 2022. The equity markets experienced volatility from an increasingly hawkish Federal Reserve (“Fed”) and instability in the currency market resulting in declines of 4.9% and 4.7%, respectively, in the S&P 500 and the Bloomberg Barclays U.S. Aggregate Bond Index during the third quarter of 2022.

Our business is also sensitive to current and expected short-term interest rates, which are largely driven by Fed policy. During the third quarter of 2022, Fed policymakers increased the target range for the federal funds rate to 3.00% to 3.25%. The Fed anticipates that ongoing increases to the target range will continue to be appropriate.

Please consult the “*Risks Related to Our Business and Industry*” section within Part I, “*Item 1A. Risk Factors*” in our 2021 Annual Report on Form 10-K for more information about the risks associated with significant interest rate changes and the potential related effects on our profitability and financial condition.

Results of Operations

Revenue

Advisory

Advisory revenue represents fees charged to advisors' clients' advisory accounts on our corporate RIA advisory platform and is based on a percentage of the market value of the eligible assets in the clients' advisory accounts. We provide ongoing investment advice and act as a custodian, providing brokerage and execution services on transactions, and perform administrative services for these accounts. Advisory fees are primarily billed to clients in advance, on a quarterly basis, and are recognized as revenue ratably during the quarter. The performance obligation for advisory fees is considered a series of distinct services that are substantially the same and are satisfied daily. As the value of the eligible assets in an advisory account is susceptible to changes due to customer activity, this revenue includes variable consideration and is constrained until the date that the fees are determinable. The majority of our client accounts are on a calendar quarter and are billed using values as of the last business day of the preceding quarter. The value of the eligible assets in an advisory account on the billing date is adjusted for estimates of contributions and withdrawals to determine the amount billed, and accordingly, the revenue earned in the following three-month period. Advisory revenue collected on our corporate advisory platform is proposed by the advisor and agreed to by the client and averaged 1% on an annualized basis of the underlying assets for the nine months ended September 30, 2022.

We also support separate investment advisor firms ("Independent RIAs") through our Independent RIA advisory platform, which allows advisors to engage us for technology, clearing and custody services, as well as access the capabilities of our investment platforms. The assets held under an Independent RIA's investment advisory accounts custodied with LPL Financial are included in total advisory assets and net new advisory assets. The advisory revenue generated by an Independent RIA is not included in our advisory revenue. We charge separate fees to Independent RIAs for technology, clearing, administrative, oversight and custody services, which may vary and are included in our Service and fee revenue in our condensed consolidated statements of income.

The following table summarizes the composition of advisory assets for the periods presented (in billions):

	September 30,		\$ Change	% Change
	2022	2021		
Corporate advisory assets	\$ 361.6	\$ 395.6	\$ (34.0)	(8.6)%
Independent RIA advisory assets	181.0	198.4	(17.4)	(8.8)%
Total advisory assets	\$ 542.6	\$ 594.0	\$ (51.4)	(8.7)%

Net new advisory assets are generated throughout the quarter, therefore, the full impact of net new advisory assets to advisory revenue is not realized in the same period. The following table summarizes activity impacting advisory assets for the periods presented (in billions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Balance - Beginning of period	\$ 558.6	\$ 577.6	\$ 643.2	\$ 461.2
Net new advisory assets ⁽¹⁾	11.0	21.7	39.8	99.3
Market impact ⁽²⁾	(27.0)	(5.3)	(140.4)	33.5
Balance - End of period	\$ 542.6	\$ 594.0	\$ 542.6	\$ 594.0

(1) Net new advisory assets consist of total client deposits into custodied advisory accounts less total client withdrawals from custodied advisory accounts, plus dividends, plus interest, minus advisory fees. We consider conversions from and to brokerage accounts as deposits and withdrawals, respectively.

(2) Market impact is the difference between the beginning and ending asset balance less the net new asset amounts, representing the implied growth or decline in asset balances due to market changes over the same period of time.

Advisory revenue decreased during the three months ended September 30, 2022 and increased during the nine months ended September 30, 2022 as compared to the same periods in 2021. The decrease during the three months ended September 30, 2022 was due to a decline in advisory asset balances related to market changes. The increase in advisory revenue during the nine months ended September 30, 2022 was driven primarily by continued organic growth and the completion of the onboarding of Waddell & Reed assets during the third quarter of 2021, partially offset by a decline in advisory asset balances due to market changes.

Commission

We generate two types of commission revenue: (1) sales-based commissions that are recognized at the point of sale on the trade date and are based on a percentage of an investment product's current market value at the time of purchase and (2) trailing commissions that are recognized over time as earned and are generally based on the market value of investment holdings in trail-eligible assets. Sales-based commission revenue, which occurs when clients trade securities or purchase various types of investment products, primarily represents gross commissions generated by our advisors, and can vary from period to period based on the overall economic environment, number of trading days in the reporting period and investment activity of our advisors' clients. We earn trailing commission revenue primarily on mutual funds and variable annuities held by clients of our advisors. See Note 3 - *Revenue*, within the notes to the condensed consolidated financial statements for further detail regarding our commission revenue by product category.

The following table sets forth the components of our commission revenue (in thousands):

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2022	2021	\$ Change	% Change	2022	2021	\$ Change	% Change
Sales-based	\$ 269,893	\$ 239,804	\$ 30,089	12.5%	\$ 762,717	\$ 725,673	\$ 37,044	5.1%
Trailing	315,087	370,580	(55,493)	(15.0)%	981,164	1,040,173	(59,009)	(5.7)%
Total commission revenue	\$ 584,980	\$ 610,384	\$ (25,404)	(4.2)%	\$ 1,743,881	\$ 1,765,846	\$ (21,965)	(1.2)%

The increase in sales-based commission revenue for the three and nine months ended September 30, 2022 compared to 2021 was primarily driven by an increase in sales of annuities partially offset by a decrease in sales of mutual funds. The decrease in trailing commission revenue for the three and nine months ended September 30, 2022 compared to 2021 was primarily due to volatility driven declines in trail eligible assets.

Commission revenue is generated from trading activity related to brokerage assets. The following table summarizes activity impacting brokerage assets for the periods presented (in billions):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Balance - Beginning of period	\$ 506.0	\$ 534.7	\$ 563.2	\$ 441.9
Net new brokerage assets ⁽¹⁾	8.9	7.3	34.9	64.6
Market impact ⁽²⁾	(19.1)	(3.4)	(102.3)	32.1
Balance - End of period	\$ 495.8	\$ 538.6	\$ 495.8	\$ 538.6

(1) Net new brokerage assets consist of total client deposits into brokerage accounts less total client withdrawals from brokerage accounts, plus dividends, plus interest. We consider conversions from and to advisory accounts as deposits and withdrawals, respectively.

(2) Market impact is the difference between the beginning and ending asset balance less the net new asset amounts, representing the implied growth or decline in asset balances due to market changes over the same period of time.

Asset-Based

Asset-based revenue consists of fees from our client cash programs, fees from our sponsorship programs with financial product manufacturers and fees from omnibus processing and networking services (collectively referred to as "recordkeeping"). Client cash revenue is generated on advisors' clients' cash balances in insured bank sweep accounts and money market sweep accounts. We also receive fees from certain financial product manufacturers in connection with sponsorship programs that support our marketing and sales force education and training efforts. Compensation for these performance obligations is either a fixed fee, a percentage of the average annual amount of product sponsor assets held in advisors' clients' accounts, a percentage of new sales or a combination. Omnibus processing revenue is paid to us by mutual fund product sponsors or their affiliates and is based on the value of mutual fund assets in accounts for which the Company provides omnibus processing services and the number of accounts in which the related mutual fund positions are held. Networking revenue on brokerage assets is correlated to the number of positions we administer and is paid to us by mutual fund product sponsors and annuity product manufacturers.

Asset-based revenue for the three and nine months ended September 30, 2022 increased compared to 2021, due primarily to an increase in client cash revenue in both periods partially offset by decreases in recordkeeping and sponsorship revenue during the three months ended September 30, 2022.

Recordkeeping and sponsorship revenue decreased during the three months ended September 30, 2022 and increased during the nine months ended September 30, 2022 as compared to the same periods in 2021, primarily as a result of market changes in assets under management during the periods.

Client cash revenue for the three and nine months ended September 30, 2022 increased compared to 2021, due to increases to the federal funds effective rate and higher average client cash balances during the three and nine months ended September 30, 2022 as compared to the prior periods. For the three months ended September 30, 2022, our average client cash balances increased to \$65.5 billion compared to \$47.0 billion in 2021. For the nine months ended September 30, 2022, our average client cash balances increased to \$62.1 billion compared to \$46.4 billion in 2021.

Service and Fee

Service and fee revenue is generated from advisor and retail investor services, including technology, insurance, conferences, licensing, LPL Services Group, which includes Business Services and Planning and Advice Services, IRA custodian and other client account fees. We charge separate fees to Independent RIAs for technology, clearing, administrative, oversight and custody services, which may vary. We also host certain advisor conferences that serve as training, education, sales and marketing events for which we charge sponsors a fee. Service and fee revenue for the three and nine months ended September 30, 2022 increased compared to 2021, primarily due to increases in conference fees, IRA custodian fees and LPL Services Group fees.

Transaction

Transaction revenue includes transaction charges generated in both advisory and brokerage accounts from products including mutual funds, exchange-traded funds and fixed income products. Transaction revenue for the three and nine months ended September 30, 2022 increased compared to 2021, primarily due to increases in the number of transactions and transaction charges for managed assets, mutual funds and fixed income products.

Interest Income, net

We earn interest income primarily from client margin loans, CCA balances segregated under federal or other regulations and advisor repayable loans. Interest income, net for the three and nine months ended September 30, 2022 increased compared to 2021, primarily due to an increase in interest earned on margin loans, bank deposits and short-term U.S. treasury bills partially offset by an increase in interest paid on CCA balances.

Other

Other revenue primarily includes unrealized gains and losses on assets held by us in our advisor non-qualified deferred compensation plan and model research portfolios, and other miscellaneous revenue, which is not generated from contracts with customers.

Other revenue for the three and nine months ended September 30, 2022 decreased compared to 2021, primarily due to realized and unrealized losses on assets held in our advisor non-qualified deferred compensation plan, which are based on the market performance of the underlying investment allocations chosen by advisors in the plan.

Expense

Advisory and Commission

Advisory and commission expense consists of the following: payout amounts that are earned by and paid out to advisors and institutions based on advisory and commission revenue earned on each client's account, production-based bonuses earned by advisors and institutions based on the levels of advisory and commission revenue they produce, the recognition of share-based compensation expense from equity awards granted to advisors and financial institutions based on the fair value of the awards at grant date and the deferred advisory and commission fee expense associated with mark-to-market gains or losses on the non-qualified deferred compensation plan offered to our advisors.

The following table sets forth our payout rate, which is a statistical or operating measure:

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2022	2021	Change	2022	2021	Change
Payout rate	87.91%	87.15%	76 bps	86.97%	86.43%	54 bps

Our payout rate for the three and nine months ended September 30, 2022 increased compared to 2021, primarily due to the impact of onboarding large financial institutions during 2021.

Compensation and Benefits

Compensation and benefits expense includes salaries, wages, benefits, share-based compensation and related taxes for our employees, as well as compensation for temporary workers and contractors. The following table sets forth our average number of employees for the three and nine months ended September 30, 2022 as compared to 2021:

	Three Months Ended September 30,			Nine Months Ended September 30,		
	2022	2021	Change	2022	2021	Change
Average number of employees	6,193	5,427	14.1%	6,117	5,117	19.5%

Compensation and benefits expense for the three and nine months ended September 30, 2022 increased by \$22.1 million and \$65.4 million compared to 2021, primarily due to an increase in salary and employee benefit expense resulting from an increase in headcount.

Promotional

Promotional expense includes business development costs related to advisor recruitment and retention, costs related to hosting certain advisory conferences that serve as training, sales and marketing events, and other costs that support advisor business growth. Promotional expense for the three months ended September 30, 2022 decreased by \$1.5 million as compared to the prior year. Promotional expense for the nine months ended September 30, 2022 increased by \$45.0 million compared to 2021, primarily due to increases in recruited assets and advisors that led to higher costs to support transition assistance and retention, as well as increases in conference spend as we returned to in-person events.

Occupancy and Equipment

Occupancy and equipment expense includes the costs of leasing and maintaining our office spaces, software licensing and maintenance costs, and maintenance expense on computer hardware and other equipment. Occupancy and equipment expense for the three and nine months ended September 30, 2022 increased by \$1.9 million and \$23.9 million, respectively, compared to 2021, primarily due to increased expense related to software licenses.

Depreciation and Amortization

Depreciation and amortization expense relates to the use of property and equipment, which includes internally developed software, hardware, leasehold improvements and other equipment. Depreciation and amortization expense for the three and nine months ended September 30, 2022 increased by \$13.3 million and \$35.0 million compared to 2021, primarily due to our continued investment in technology to support integrations, enhance our advisor platform and end-client experience, and support large financial institution onboarding.

Interest Expense on Borrowings

Interest expense on borrowings includes the interest associated with the Company's senior notes, Term Loan B, amortization of debt issuance costs and fees associated with the Company's revolving lines of credit. Interest expense on borrowings for the three and nine months ended September 30, 2022 increased by \$6.1 million and \$11.9 million compared to 2021, primarily due to increases in interest rates associated with our Term Loan B. See Note 9 - *Corporate Debt and Other Borrowings, Net*, within the notes to the condensed consolidated financial statements for further detail.

Loss on Extinguishment of Debt

On March 15, 2021, we issued senior unsecured notes due in 2029 and redeemed our existing senior unsecured notes due in 2025. In connection with these transactions, we incurred a \$24.4 million loss on extinguishment of debt for the nine months ended September 30, 2021. There was no loss on extinguishment of debt during the nine months ended September 30, 2022.

Other Expense

Other expense includes the costs of the investigation, settlement and resolution of regulatory matters (including customer restitution and remediation), licensing fees, insurance, broker-dealer regulatory fees, travel-related expenses and other miscellaneous expenses. Other expense depends in part on the size and timing of resolving regulatory matters and the availability of self-insurance coverage, which depends in part on the amount and timing of resolving historical claims. Other expense for the three months ended September 30, 2022 decreased by \$5.3

million compared to 2021, primarily due to decreases in costs related to Waddell & Reed transitional support. Other expense for the nine months ended September 30, 2022 increased by \$12.4 million compared to 2021, primarily due to increases in travel related costs and sales and use tax, partially offset by decreases in costs related to Waddell & Reed transitional support.

Provision for Income Taxes

Our effective income tax rate was 24.3% and 25.3% for the three months ended September 30, 2022 and 2021, respectively, and 23.9% and 24.3% for the nine months ended September 30, 2022 and 2021, respectively. The Company's effective income tax rate differs from the federal corporate tax rate of 21.0%, primarily as a result of state taxes, state and federal settlement contingencies, tax credits and other permanent differences in tax deductibility of certain expenses. Our effective income tax rates for the three and nine months ended September 30, 2022 and 2021 benefited from share-based compensation and option exercises during those periods, partially offset by settlement contingencies recognized during the three and nine months ended September 30, 2022 and 2021.

Liquidity and Capital Resources

We have established liquidity and capital policies intended to support the execution of strategic initiatives, while meeting regulatory capital requirements and maintaining ongoing and sufficient liquidity. We believe liquidity is of critical importance to the Company and, in particular, to LPL Financial, our broker-dealer subsidiary. The objective of our policies is to ensure that we can meet our strategic, operational and regulatory liquidity and capital requirements under both normal operating conditions and under periods of stress in the financial markets.

Liquidity

Our liquidity needs are primarily driven by capital requirements at LPL Financial, interest due on our corporate debt and other capital returns to shareholders. Our liquidity needs at LPL Financial are driven primarily by the level and volatility of our client activity. Management maintains a set of liquidity sources and monitors certain business trends and market metrics closely in an effort to ensure we have sufficient liquidity. We believe that based on current levels of cash flows from operations and anticipated growth, together with available external liquidity sources, we have adequate liquidity to satisfy our working capital needs, the payment of all of our obligations and the funding of anticipated capital expenditures for the foreseeable future.

Parent Company Liquidity

LPL Holdings, Inc. ("Parent"), the direct holding company of our operating subsidiaries, considers its primary source of liquidity to be Corporate Cash. Corporate Cash, a component of cash and equivalents, is the sum of cash and equivalents from the following: (1) cash and equivalents held at the Parent, (2) cash and equivalents held at regulated subsidiaries as defined by the Company's Credit Agreement, which include LPL Financial and The Private Trust Company, N.A. ("PTC"), in excess of the capital requirements of the Company's Credit Agreement (which, in the case of LPL Financial, is net capital in excess of 10% of its aggregate debits, or five times the net capital required in accordance with Exchange Act Rule 15c3-1) and (3) cash and equivalents held at non-regulated subsidiaries.

We believe Corporate Cash is a useful measure of the Parent's liquidity as it represents the capital available for use in excess of the amount we are required to reserve pursuant to the Credit Agreement. The following table presents the components of Corporate Cash (in thousands):

	September 30, 2022	December 31, 2021
Cash and equivalents	\$ 1,219,418	\$ 495,246
Cash at regulated subsidiaries	(917,700)	(284,105)
Excess cash at regulated subsidiaries per the Credit Agreement	122,562	25,846
Corporate Cash	\$ 424,280	\$ 236,987
Corporate Cash		
Cash at Parent	292,885	202,407
Excess cash at regulated subsidiaries per the Credit Agreement	122,562	25,846
Cash at non-regulated subsidiaries	8,833	8,734
Corporate Cash	\$ 424,280	\$ 236,987

Corporate Cash is monitored as part of our liquidity risk management. We target maintaining \$200.0 million in Corporate Cash, which covers approximately 18 months of principal and interest due on our corporate debt. The Company maintains additional liquidity through a \$1.0 billion secured committed revolving credit facility. The Parent has the ability to borrow against the credit facility for working capital and general corporate purposes. Dividends from and excess capital generated by regulated subsidiaries are the primary sources of liquidity. Subject to regulatory approval or notification, capital generated by regulated subsidiaries can be distributed to the Parent to the extent the capital levels exceed regulatory requirements, Credit Agreement requirements and internal capital thresholds. During the nine months ended September 30, 2022 and 2021, regulated subsidiaries paid dividends of \$687.0 million and \$390.0 million to the Parent, respectively.

Share Repurchases

We engage in a share repurchase program, which is approved by our Board of Directors, pursuant to which we may repurchase our issued and outstanding shares of common stock from time to time. Purchases may be effected in open market or privately negotiated transactions. Our current capital deployment framework remains focused on investing in organic growth first, pursuing acquisitions where appropriate, and returning excess capital to shareholders. In the first half of 2021, the majority of our capital deployment was focused on supporting organic growth and acquisitions. While we continue to see opportunities to deploy capital in this manner, we resumed share repurchases in the third quarter of 2021 with the initial focus on an amount to offset dilution. We repurchased 930,201 shares for a total of \$175.0 million during the nine months ended September 30, 2022. Additionally, on September 21, 2022, the Board of Directors authorized a \$2.1 billion increase to the amount available for repurchases of our issued and outstanding common shares with \$2.0 billion available for repurchases beginning in 2023. As of September 30, 2022, we had \$2.15 billion remaining under our existing repurchase program. The timing and amount of share repurchases, if any, is determined at our discretion within the constraints of our Credit Agreement, the Indentures, applicable laws and consideration of our general liquidity needs. See Note 11 - *Stockholders' Equity*, within the notes to the condensed consolidated financial statements for additional information regarding our share repurchases.

Common Stock Dividends

The payment, timing and amount of any dividends are subject to approval by the Board of Directors, as well as certain limits under our Credit Agreement and the Indentures. See Note 11 - *Stockholders' Equity*, within the notes to the condensed consolidated financial statements for additional information regarding our dividends.

LPL Financial Liquidity

Our broker-dealer subsidiary, LPL Financial LLC ("LPL Financial"), relies primarily on client payables to fund margin lending. LPL Financial maintains additional liquidity through external lines of credit totaling \$1.2 billion at September 30, 2022. LPL Financial also maintains a line of credit with the Parent.

External Liquidity Sources

The following table presents amounts outstanding and available under our external lines of credit at September 30, 2022 (in millions):

Capital Resources

The Company seeks to manage capital levels in support of its business strategy of generating and effectively deploying capital for the benefit of our shareholders.

Our primary requirement for working capital relates to funds we loan to our advisors' clients for trading conducted on margin and funds we are required to maintain for regulatory capital and reserves based on the requirements of our regulators and clearing organizations, which also consider client balances and trading activities. We have several sources of funds that enable us to meet increases in working capital requirements that relate to increases in client margin activities and balances. These sources include cash and equivalents on hand, the committed revolving credit facility of LPL Financial and proceeds from repledging or selling client securities in margin accounts. When an advisor's client purchases securities on margin or uses securities as collateral to borrow from us on margin, we are permitted, pursuant to the applicable securities industry regulations, to repledge, loan or sell securities, up to 140% of the client's margin loan balance, that collateralize those margin accounts.

Our other working capital needs are primarily related to loans we are making to advisors and timing associated with receivables and payables, which we have satisfied in the past from internally generated cash flows.

We may sometimes be required to fund timing differences arising from the delayed receipt of client funds associated with the settlement of client transactions in securities markets. These timing differences are funded either with internally generated cash flows or, if needed, with funds drawn on our uncommitted lines of credit at LPL Financial or one of our revolving credit facilities.

LPL Financial is subject to the SEC's Uniform Net Capital Rule, which requires the maintenance of minimum net capital. LPL Financial computes net capital requirements under the alternative method, which requires firms to maintain minimum net capital equal to the greater of \$250,000 or 2% of aggregate debit balances arising from client transactions. At September 30, 2022, LPL Financial had net capital of \$189.9 million with a minimum net capital requirement of \$14.2 million.

LPL Financial's ability to pay dividends greater than 10% of its excess net capital during any 35-day rolling period requires approval from FINRA. In addition, payment of dividends is restricted if LPL Financial's net capital would be less than 5% of aggregate customer debit balances.

LPL Financial also acts as an introducing broker for commodities and futures. Accordingly, its trading activities are subject to the NFA financial requirements and it is required to maintain net capital that is in excess of or equal to the greatest of NFA's minimum financial requirements. The NFA was designated by the Commodity Futures Trading Commission as LPL Financial's primary regulator for such activities. Currently, the highest NFA requirement is the minimum net capital calculated and required pursuant to the SEC's Uniform Net Capital Rule.

Our subsidiary PTC is also subject to various regulatory capital requirements. Failure to meet the respective minimum capital requirements can result in certain mandatory and discretionary actions by regulators that, if undertaken, could have substantial monetary and non-monetary impacts on PTC's operations.

Debt and Related Covenants

The Credit Agreement and the Indentures contain a number of covenants that, among other things, restrict, subject to certain exceptions, our ability to:

- incur additional indebtedness or issue disqualified stock or preferred stock;
- declare dividends, or other distributions to stockholders;
- repurchase equity interests;
- redeem indebtedness that is subordinated in right of payment to certain debt instruments;
- make investments or acquisitions;
- create liens;
- sell assets;
- guarantee indebtedness;
- engage in certain transactions with affiliates;
- enter into agreements that restrict dividends or other payments from subsidiaries; and
- consolidate, merge or transfer all or substantially all of our assets.

Our Credit Agreement and the Indentures allow us to pay dividends and distributions or repurchase our common stock only when certain conditions are met. In addition, our revolving credit facility requires us to be in compliance with certain financial covenants as of the last day of each fiscal quarter. The financial covenants require the calculation of Credit Agreement EBITDA, as defined in, and calculated by management in accordance with, the Credit Agreement. The Credit Agreement defines Credit Agreement EBITDA as “Consolidated EBITDA,” which is Consolidated Net Income (as defined in the Credit Agreement) plus interest expense on borrowings, provision for income taxes, depreciation and amortization, and amortization of other intangibles, and is further adjusted to exclude certain non-cash charges and other adjustments (including unusual or non-recurring charges) and gains, and to include future expected cost savings, operating expense reductions or other synergies from certain transactions.

As of September 30, 2022, we were in compliance with both financial covenants, a maximum Consolidated Total Debt to Consolidated EBITDA Ratio (as defined in the Credit Agreement) or “Leverage Ratio” and a minimum Consolidated EBITDA to Consolidated Interest Expense Ratio (as defined in the Credit Agreement) or “Interest Coverage”. The breach of these financial covenants would be subject to certain equity cure rights. The required ratios under our financial covenants and actual ratios were as follows:

Financial Ratio	September 30, 2022	
	Covenant Requirement	Actual Ratio
Leverage Ratio (Maximum)	5.00	1.72
Interest Coverage (Minimum)	3.00	12.97

See Note 9 - *Corporate Debt and Other Borrowings, Net*, within the notes to the condensed consolidated financial statements for further detail regarding the Credit Agreement and the Indentures.

Contractual Obligations

During the nine months ended September 30, 2022, there were no material changes in our contractual obligations, other than in the ordinary course of business, from those disclosed in our 2021 Annual Report on Form 10-K. See Note 9 - *Corporate Debt and Other Borrowings, Net* and Note 10 - *Commitments and Contingencies*, within the notes to the condensed consolidated financial statements, as well as the Contractual Obligations section within Part II, “*Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations*” in our 2021 Annual Report on Form 10-K, for further detail.

Critical Accounting Policies and Estimates

In the notes to our consolidated financial statements and in Part II, “*Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations*” included in our 2021 Annual Report on Form 10-K, we have disclosed those accounting policies that we consider to be most significant in determining our results of operations and financial condition and involve a higher degree of judgment and complexity. There have been no changes to those policies that we consider to be material since the filing of our 2021 Annual Report on Form 10-K. The accounting principles used in preparing our condensed consolidated financial statements conform in all material respects to GAAP.

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

NOTE 1 - ORGANIZATION AND DESCRIPTION OF THE COMPANY

LPL Financial Holdings Inc. (“LPLFH”), a Delaware holding corporation, together with its consolidated subsidiaries (collectively, the “Company”), provides an integrated platform of brokerage and investment advisory services to independent financial advisors and financial advisors at financial institutions (collectively, “advisors”) in the United States. Through its custody and clearing platform, using both proprietary and third-party technology, the Company provides access to diversified financial products and services, enabling its advisors to offer personalized financial advice and brokerage services to retail investors (their “clients”). The Company’s most significant, wholly owned subsidiaries are described below:

- LPL Holdings, Inc. (“LPLH” or “Parent”), a Massachusetts holding corporation, is an intermediate holding company and directly or indirectly owns 100% of the issued and outstanding common stock of all of LPLFH’s indirect subsidiaries, including a captive insurance subsidiary (the “Captive Insurance Subsidiary”) that underwrites insurance for various legal and regulatory risks of the Company.
- LPL Financial LLC (“LPL Financial”), with primary offices in San Diego, California; Fort Mill, South Carolina; Boston, Massachusetts; and Austin, Texas, is a clearing broker-dealer and an investment advisor that principally transacts business as an agent for its advisors and financial institutions on behalf of their clients in a broad array of financial products and services. LPL Financial is licensed to operate in all 50 states, Washington D.C., Puerto Rico and the U.S. Virgin Islands.
- Fortigent Holdings Company, Inc. and its subsidiaries provide solutions and consulting services to registered investment advisors (“RIAs”), banks and trust companies serving high-net-worth clients.
- LPL Insurance Associates, Inc. operates as an insurance brokerage general agency that offers life and disability insurance products and services for LPL Financial advisors.
- AW Subsidiary, Inc. is a holding company for AdvisoryWorld and Blaze Portfolio Systems LLC (“Blaze”). AdvisoryWorld offers technology products, including proposal generation, investment analytics and portfolio modeling, to both the Company’s advisors and external clients in the wealth management industry. Blaze provides an advisor-facing trading and portfolio rebalancing platform.
- PTC Holdings, Inc. (“PTCH”) is a holding company for The Private Trust Company, N.A. (“PTC”). PTC is chartered as a non-depository limited purpose national bank, providing a wide range of trust, investment management oversight and custodial services for estates and families. PTC also provides Individual Retirement Account (“IRA”) custodial services for LPL Financial. Each member of PTCH’s Board of Directors meets the direct equity ownership interest requirements that are required by the Office of the Comptroller of the Currency (“OCC”).
- LPL Employee Services, LLC and its subsidiary, Allen & Company of Florida, LLC, provide primary support for the Company’s employee advisor affiliation model.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES***Basis of Presentation***

The unaudited condensed consolidated financial statements (“condensed consolidated financial statements”) are prepared in accordance with accounting principles generally accepted in the United States (“GAAP”), which require the Company to make estimates and assumptions regarding the valuation of certain financial instruments, goodwill and other intangibles, allowance for credit losses on receivables, share-based compensation, accruals for liabilities, income taxes, revenue and expense accruals and other matters that affect the condensed consolidated financial statements and related disclosures. The unaudited condensed consolidated financial statements reflect all adjustments which are, in the opinion of management, necessary to present fairly the results of operations for the interim periods presented. Actual results could differ from those estimates under different assumptions or conditions and the differences may be material to the condensed consolidated financial statements.

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

The condensed consolidated financial statements include the accounts of LPLFH and its subsidiaries. Intercompany transactions and balances have been eliminated. The unaudited condensed consolidated financial statements should be read in conjunction with the Company's audited consolidated financial statements and the related notes for the year ended December 31, 2021, contained in the Company's Annual Report on Form 10-K as filed with the Securities and Exchange Commission ("SEC").

Condensed Consolidated Financial Statement Presentation Changes

The Company reclassified certain financial statement line items in the consolidated statements of income included in its Annual Report on Form 10-K for the year ended December 31, 2021 to more closely align with industry practice and the Company's business and to better serve financial statement users. Prior period amounts in the condensed consolidated statements of income have been reclassified to conform to this presentation as follows:

- The Company has disaggregated the activity previously reported in the Transaction and fee line item in Total revenue into its Service and fee and Transaction components; and
- The Company has included Interest expense on borrowings and Loss on extinguishment of debt in Total expense. Previously, these amounts were presented after Total operating expense.

These changes did not impact total net income for the three and nine months ended September 30, 2021. The Company also updated the condensed consolidated statement of cash flows for the nine months ended September 30, 2021 to conform to changes made to the presentation of the statements of financial condition during the year ended December 31, 2021. See Note 2 - *Summary of Significant Accounting Policies* in the Company's 2021 Annual Report on Form 10-K for additional information.

In addition, during the year ended December 31, 2021, the Company concluded that it is acting in a principal capacity for fractional shares held in customer brokerage accounts resulting from the dividend reinvestment program ("DRIP") that the Company offers. The Company concluded that it should account for these shares as a secured borrowing with underlying financial assets pledged as collateral. The Company corrected its condensed consolidated statement of cash flows for the nine months ended September 30, 2021 to reflect the changes in the condensed consolidated statement of financial condition related to this activity in the prior period. As a result, the Company corrected the condensed consolidated statement of cash flows to reflect an increase in the change in other assets line item and an offsetting increase in the change in other liabilities line item of \$23.9 million for the nine months ended September 30, 2021. This adjustment did not have an impact on earnings, earnings per share, or net cash provided by operating activities in the prior period. The Company has evaluated the impact of the error on previously issued condensed consolidated financial statements and determined, based on consideration of quantitative and qualitative factors, that the impact of the error is immaterial.

Related Party Transactions

In the ordinary course of business, the Company has related party transactions with beneficial owners of more than five percent of the Company's outstanding common stock. Additionally, through its subsidiary LPL Financial, the Company provides services and charitable contributions to LPL Financial Charitable Foundation Inc., a charitable organization that provides volunteer and financial support within the Company's local communities.

The Company recognized revenue for services provided to these related parties of \$1.4 million and \$1.5 million during the three months ended September 30, 2022 and 2021, respectively, and \$4.4 million during both the nine months ended September 30, 2022 and 2021. The Company incurred expense for the services provided by these related parties of \$0.4 million and \$0.5 million during the three months ended September 30, 2022 and 2021, respectively, and \$2.7 million and \$1.3 million during the nine months ended September 30, 2022 and 2021, respectively. As of September 30, 2022 and December 31, 2021, receivables from and payables to related parties were not material.

Recently Issued or Adopted Accounting Pronouncements

There are no relevant recently issued accounting pronouncements that would materially impact the Company's condensed consolidated financial statements and related disclosures. There were no new accounting pronouncements adopted during the nine months ended September 30, 2022 that materially impacted the Company's condensed consolidated financial statements and related disclosures.

Total service and fee revenue	\$ 121,745	\$ 105,079	\$ 347,359	\$ 301,376

(1) Service and fee revenue recognized at a point-in-time includes revenue such as IRA termination fees, conference services and account fees.

(2) Service and fee revenue recognized over time includes revenue such as error and omission insurance fees, IRA custodian fees and technology fees.

Unearned Revenue

The Company records unearned revenue when cash payments are received or due in advance of the Company's performance obligations, including amounts which are refundable. The decrease in the unearned revenue balance for the nine months ended September 30, 2022 is primarily driven by cash payments received or due in advance of satisfying the Company's performance obligations, offset by \$159.4 million of revenue recognized that was included in the unearned revenue balance as of December 31, 2021.

The Company receives cash in advance for advisory services to be performed and conferences to be held in future periods. For advisory services, revenue is recognized as the Company provides the administration, brokerage and execution services over time to satisfy the performance obligations. For conference revenue, the Company recognizes revenue as the conferences are held.

NOTE 4 - ACQUISITIONS

On April 30, 2021, the Company acquired the wealth management business of Waddell & Reed Financial, Inc. for \$300.0 million in order to expand its addressable markets and complement organic growth (the "Waddell & Reed Acquisition"). The Company accounted for the acquisition under the acquisition method of accounting for business combinations. The Company allocated \$128.6 million of the purchase price to goodwill, \$122.7 million to definite-lived intangible assets, \$62.3 million to cash acquired and the remainder to other assets acquired and liabilities assumed as part of the acquisition. The goodwill primarily includes the synergies expected to result from combining operations and onboarding advisors and assets to the Company's platform and is deductible for tax purposes. See Note 7 - *Goodwill and Other Intangibles, Net*, for additional information.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Inputs used to measure fair value are prioritized within a three-level fair value hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 — Quoted prices in active markets for identical assets or liabilities.

Level 2 — Observable inputs other than quoted prices included in Level 1, such as quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3 — Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities. This includes certain pricing models, discounted cash flow methodologies and similar techniques that use significant unobservable inputs.

There have been no transfers of assets or liabilities between these fair value measurement classifications during the nine months ended September 30, 2022 or 2021.

The Company's fair value measurements are evaluated within the fair value hierarchy, based on the nature of inputs used to determine the fair value at the measurement date. At September 30, 2022 and December 31, 2021, the Company had the following financial assets and liabilities that are measured at fair value on a recurring basis:

Cash Equivalents — The Company's cash equivalents include money market funds, which are short term in nature with readily determinable values derived from active markets.

Cash Equivalents Segregated Under Federal or Other Regulations — The Company's cash equivalents segregated under federal or other regulations include U.S. treasury bills, which are short term in nature with readily determinable values derived from active markets.

Trading Securities and Securities Sold, But Not Yet Purchased — The Company's trading securities consist of house account model portfolios established and managed for the purpose of benchmarking the performance of its fee-based advisory platforms and temporary positions resulting from the processing of client transactions.

The Company uses prices obtained from independent third-party pricing services to measure the fair value of its trading securities. Prices received from the pricing services are validated using various methods including comparison to prices received from additional pricing services, comparison to available quoted market prices and review of other relevant market data including implied yields of major categories of securities. In general, these quoted prices are derived from active markets for identical assets or liabilities. When quoted prices in active markets for identical assets and liabilities are not available, the quoted prices are based on similar assets and liabilities or inputs other than the quoted prices that are observable, either directly or indirectly. For negotiable certificates of deposit and treasury securities, the Company utilizes market-based inputs, including observable market interest rates that correspond to the remaining maturities or the next interest reset dates. At September 30, 2022 and December 31, 2021, the Company did not adjust prices received from the independent third-party pricing services.

Other Assets — The Company's other assets include: (1) deferred compensation plan assets that are invested in money market and other mutual funds, which are actively traded and valued based on quoted market prices; and (2) certain non-traded real estate investment trusts and auction rate notes, which are valued using quoted prices for identical or similar securities and other inputs that are observable or can be corroborated by observable market data.

Fractional Shares — The Company's investment in fractional shares held by customers is reflected in other assets while the related purchase obligation for such shares is reflected in other liabilities. The Company uses prices obtained from independent third-party pricing services to measure the fair value of its investment in fractional shares held by customers and the related repurchase obligation. Prices received from the pricing services are validated using various methods including comparison to prices received from additional pricing services, comparison to available quoted market prices and review of other relevant market data including

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

implied yields of major categories of securities. At September 30, 2022 and December 31, 2021, the Company did not adjust prices received from the independent third-party pricing services.

Accounts Payable and Accrued Liabilities — The Company's accounts payable and accrued liabilities include contingent consideration liabilities that are measured using Level 3 inputs.

Level 3 Recurring Fair Value Measurements

The Company determines the fair value for its contingent consideration obligations using a scenario-based approach whereby the Company assesses the expected number of future transactions. The contingent payment is estimated by applying a discount rate to the expected payment to calculate the fair value as of the valuation date. The Company evaluates the underlying projections and other related factors used in determining fair value each period and makes updates when there have been significant changes in management's expectations.

NOTE 7 - GOODWILL AND OTHER INTANGIBLES, NET

On April 30, 2021, the Company completed the Waddell & Reed Acquisition. The Company allocated \$128.6 million of the purchase price to goodwill, \$122.7 million to definite-lived intangible assets, \$62.3 million to cash acquired and the remainder to other assets acquired and liabilities assumed as part of the Waddell & Reed Acquisition. The intangible assets are comprised primarily of advisor relationships with a weighted average useful life of approximately 9 years. See Note 4 - *Acquisitions*, for additional information.

Outstanding balances under our external lines of credit at December 31, 2021 were repaid in January 2022. There were no borrowings outstanding under the Company's external lines of credit at September 30, 2022.

Issuance of 2031 Senior Notes

LPLH raised \$400.0 million in aggregate principal amount of 4.375% senior notes on May 18, 2021, which were issued at par ("2031 Senior Notes"). The Company used the proceeds from the issuance to repay borrowings made under the senior secured revolving credit facility related to the Waddell & Reed Acquisition. In connection with the issuance of the 2031 Senior Notes, the Company incurred \$3.8 million in costs, which were capitalized as debt issuance costs in the condensed consolidated statements of financial condition.

Issuance of 2029 Senior Notes

LPLH raised \$900.0 million in aggregate principal amount of 4.00% senior notes on March 15, 2021, which were issued at par ("2029 Senior Notes"). The Company used the proceeds from the issuance of the 2029 Senior Notes, along with existing Corporate Cash available, to redeem its existing 5.75% senior unsecured notes due in 2025. In connection with this redemption, the Company recognized \$24.4 million as a loss on extinguishment of debt on the condensed consolidated statement of income for the nine months ended September 30, 2021. In connection with

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

the issuance of the 2029 Senior Notes, the Company incurred \$9.0 million in costs, which were capitalized as debt issuance costs in the condensed consolidated statements of financial condition.

Credit Agreement

On March 15, 2021, LPLFH and LPLH entered into a fifth amendment agreement (the "Amendment") to the Company's amended and restated credit agreement ("Credit Agreement"), which, among other things, increased the size of its senior secured revolving credit facility to \$1.0 billion and extended its maturity date. In connection with the execution of the Amendment, the Company incurred \$3.2 million in costs, which were capitalized as debt issuance costs in the condensed consolidated statements of financial condition. The Credit Agreement subjects the Company to certain financial and non-financial covenants. As of September 30, 2022, the Company was in compliance with such covenants.

Parent Revolving Credit Facility

Borrowings under the revolving credit facility bear interest at a rate per annum ranging from 125 to 175 basis points over the Eurodollar Rate or 25 to 75 basis points over the base rate, depending on the Consolidated Secured Debt to Consolidated EBITDA Ratio (as defined in the Credit Agreement).

Broker-Dealer Revolving Credit Facility

On August 4, 2022, LPL Financial, the Company's broker-dealer subsidiary, entered into a committed senior unsecured revolving credit facility that matures on August 3, 2023 and allows for a maximum borrowing of up to \$1.0 billion. This revolving credit facility replaced the \$300.0 million credit facility that was due to mature on July 31, 2024. Borrowings under the credit facility bear interest at a rate per annum equal to 1.25% per annum plus the greatest of (i) the secured overnight financing rate plus 0.10%, (ii) the effective federal funds rate and (iii) the overnight bank funding rate, in each case, as such rate is administered or determined by the Federal Reserve Bank of New York from time to time. In connection with the credit facility, LPL Financial incurred \$1.9 million in costs, which were capitalized as debt issuance costs in the condensed consolidated statements of financial condition. The broker-dealer credit agreement subjects LPL Financial to certain financial and non-financial covenants. LPL Financial was in compliance with such covenants as of September 30, 2022.

Other External Lines of Credit

LPL Financial maintained five uncommitted lines of credit as of September 30, 2022. Two of the lines have unspecified limits, which are primarily dependent on LPL Financial's ability to provide sufficient collateral. The other three lines have a total limit of \$200.0 million, which allow for uncollateralized borrowings.

NOTE 10 - COMMITMENTS AND CONTINGENCIES

Service and Development Contracts

The Company is party to certain long-term contracts for systems and services that enable back-office trade processing and clearing for its product and service offerings.

Guarantees

The Company occasionally enters into contracts that contingently require it to indemnify certain parties against third-party claims. The terms of these obligations vary and, because a maximum obligation is not explicitly stated, the Company has determined that it is not possible to make an estimate of the amount that it could be obligated to pay under such contracts.

LPL Financial provides guarantees to securities clearing houses and exchanges under their standard membership agreements, which require a member to guarantee the performance of other members. Under these agreements, if a member becomes unable to satisfy its obligations to the clearing houses and exchanges, all other members would be required to meet any shortfall. The Company's liability under these arrangements is not quantifiable and could exceed the cash and securities it has posted as collateral. However, the potential requirement for the Company to make payments under these agreements is remote. Accordingly, no liability has been recognized for these transactions.

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

Loan Commitments

From time to time, LPL Financial makes loans to its advisors, primarily to newly recruited advisors to assist in the transition process, which may be forgivable. Due to timing differences, LPL Financial may make commitments to issue such loans prior to actually funding them. These commitments are generally contingent upon certain events occurring, including but not limited to the advisor joining LPL Financial. LPL Financial had no significant unfunded loan commitments at September 30, 2022 or December 31, 2021.

Legal and Regulatory Matters

The Company is subject to extensive regulation and supervision by U.S. federal and state agencies and various self-regulatory organizations. The Company and its advisors periodically engage with such agencies and organizations, in the context of examinations or otherwise, to respond to inquiries, informational requests and investigations. From time to time, such engagements result in regulatory complaints or other matters, the resolution of which has in the past and may in the future include fines, customer restitution and other remediation. Assessing the probability of a loss occurring and the timing and amount of any loss related to a legal proceeding or regulatory matter is inherently difficult. While the Company exercises significant and complex judgments to make certain estimates presented in its condensed consolidated financial statements, there are particular uncertainties and complexities involved when assessing the potential outcomes of legal proceedings and regulatory matters. The Company's assessment process considers a variety of factors and assumptions, which may include: the procedural status of the matter and any recent developments; prior experience and the experience of others in similar matters; the size and nature of potential exposures; available defenses; the progress of fact discovery; the opinions of counsel and experts; or the potential opportunities for settlement and the status of any settlement discussions. The Company monitors these factors and assumptions for new developments and re-assesses the likelihood that a loss will occur and the estimated range or amount of loss, if those amounts can be reasonably determined. The Company has established an accrual for those legal proceedings and regulatory matters for which a loss is both probable and the amount can be reasonably estimated.

Third-Party Insurance

The Company maintains third-party insurance coverage for certain potential legal proceedings, including those involving certain client claims. With respect to such client claims, the estimated losses on many of the pending matters are less than the applicable deductibles of the insurance policies.

Self-Insurance

The Company has self-insurance for certain potential liabilities through the Captive Insurance Subsidiary. Liabilities associated with the risks that are retained by the Company are not discounted and are estimated by considering, in part, historical claims experience, severity factors, and actuarial assumptions and estimates. The estimated accruals for these potential liabilities could be significantly affected if future occurrences and claims differ from such assumptions and historical trends, so there are particular complexities and uncertainties involved when assessing the adequacy of loss reserves for potential liabilities that are self-insured. As of September 30, 2022 and December 31, 2021, these self-insurance liabilities were \$70.2 million and \$67.2 million, respectively, and are included in Accounts payable and accrued liabilities in the condensed consolidated statements of financial condition. The increase in self-insurance liabilities during the nine months ended September 30, 2022 was driven by \$27.4 million of additional reserves for claims that had been incurred but not reported, which were partially offset by \$24.4 million of payments made during the period. Self-insurance related charges are included in Other expense in the condensed consolidated statements of income.

Other Commitments

As of September 30, 2022, the Company had approximately \$515.6 million of client margin loans that were collateralized with securities having a fair value of approximately \$721.8 million that LPL Financial can repledge, loan or sell. Of these securities, approximately \$49.8 million were client-owned securities pledged to the Options Clearing Corporation as collateral to secure client obligations related to options positions. As of September 30, 2022, there were no restrictions that materially limited the Company's ability to repledge, loan or sell the remaining \$672.0 million of client collateral.

Investment securities on the condensed consolidated statements of financial condition include \$4.4 million and \$4.6 million of trading securities pledged to the Options Clearing Corporation at September 30, 2022 and December 31,

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES

2021, respectively, and \$19.7 million and \$15.0 million of trading securities pledged to the National Securities Clearing Corporation at September 30, 2022 and December 31, 2021, respectively.

NOTE 11 - STOCKHOLDERS' EQUITY

Dividends

The payment, timing, and amount of any dividends are subject to approval by the Company's Board of Directors as well as certain limits under the Credit Agreement and the indentures governing the Company's senior unsecured notes (the "Indentures"). Cash dividends per share of common stock and total cash dividends paid on a quarterly basis were as follows (in millions, except per share data):

	2022		2021	
	Dividend per Share	Total Cash Dividend	Dividend per Share	Total Cash Dividend
First quarter	\$ 0.25	\$ 20.0	\$ 0.25	\$ 20.0
Second quarter	\$ 0.25	\$ 20.0	\$ 0.25	\$ 20.0
Third quarter	\$ 0.25	\$ 20.0	\$ 0.25	\$ 20.1

Share Repurchases

The Company engages in a share repurchase program, which was approved by the Board of Directors, pursuant to which the Company may repurchase its issued and outstanding shares of common stock from time to time. Repurchased shares are included in Treasury stock on the condensed consolidated statements of financial condition.

The Company resumed share repurchases in the third quarter of 2021, and during the nine months ended September 30, 2022 repurchased 930,201 shares of common stock at a weighted-average price of \$188.15 for a total of \$175.0 million. On September 21, 2022, the Board of Directors authorized a \$2.1 billion increase to the amount available for repurchases of the Company's issued and outstanding common shares with \$2.0 billion available for repurchases beginning in 2023. As of September 30, 2022, the Company had \$2.15 billion remaining under the existing share repurchase program. Future share repurchases may be effected in open market or privately negotiated transactions, including transactions with affiliates, with the timing of purchases and the amount of stock purchased generally determined at the discretion of the Company within the constraints of the Credit Agreement, the Indentures and the Company's general working capital needs.

NOTE 12 - SHARE-BASED COMPENSATION

In May 2021, the Company adopted the 2021 Omnibus Equity Incentive Plan (the "2021 Plan"), which provides for the granting of stock options, warrants, restricted stock awards, restricted stock units, deferred stock units, performance stock units and other equity-based compensation to the Company's employees, non-employee directors and other service providers. The 2021 Plan serves as the successor to the Company's 2010 Omnibus Equity Incentive Plan (the "2010 Plan"). Following the adoption of the 2021 Plan, the Company is no longer making grants under the 2010 Plan, and the 2021 Plan is the only plan under which equity awards are granted. However, awards previously granted under the 2010 Plan will remain outstanding until vested, exercised or forfeited, as applicable.

There were 17,754,197 shares authorized for grant under the 2021 Plan and 13,774,220 shares remaining available for future issuance at September 30, 2022.

The Company has not granted stock options or warrants since 2019. The Company recognized no share-based compensation related to the vesting of stock options during the three months ended September 30, 2022 and \$0.7 million of expense during the three months ended September 30, 2021. The Company recognized \$0.2 million and \$2.2 million of stock option expense, respectively during the nine months ended September 30, 2022 and 2021. As of September 30, 2022, there was no unrecognized compensation cost related to non-vested stock options as the remaining share-based compensation expense was recognized during the three months ended March 31, 2022.

(1) Includes 82,153 vested and undistributed deferred stock units.

The Company grants restricted stock awards and deferred stock units to its directors and restricted stock units and performance stock units to its employees and officers. Restricted stock awards and stock units must vest or are subject to forfeiture; however, restricted stock awards are included in shares outstanding upon grant and have the same dividend and voting rights as the Company's common stock. The Company recognized \$10.2 million and \$8.6 million of share-based compensation related to the vesting of these restricted stock awards and stock units during the three months ended September 30, 2022 and 2021, respectively, and \$34.9 million and \$28.7 million during the nine months ended September 30, 2022 and 2021, respectively. As of September 30, 2022, total unrecognized compensation cost for restricted stock awards and stock units was \$72.4 million, which is expected to be recognized over a weighted-average remaining period of 2.05 years.

The Company also grants restricted stock units to its advisors and to financial institutions. The Company recognized share-based compensation of \$0.7 million and \$0.5 million related to the vesting of these awards during the three months ended September 30, 2022 and 2021, respectively, and \$1.9 million and \$1.7 million during the nine months ended September 30, 2022 and 2021, respectively. As of September 30, 2022, total unrecognized compensation cost for restricted stock units granted to advisors and financial institutions was \$5.9 million, which is expected to be recognized over a weighted-average remaining period of 2.35 years.

NOTE 13 - EARNINGS PER SHARE

Basic earnings per share is computed by dividing net income available to common stockholders by the weighted-average number of shares of common stock outstanding during the period. The computation of diluted earnings per share is similar to the computation of basic earnings per share, except that the denominator is increased to include the number of additional shares of common stock that would have been outstanding if dilutive potential shares of common stock had been issued. The calculation of basic and diluted earnings per share for the periods noted was as follows (in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2022	2021	2022	2021
Net income	\$ 232,331	\$ 103,064	\$ 526,620	\$ 351,785
Basic weighted-average number of shares outstanding	79,805	80,182	79,909	79,981
Dilutive common share equivalents	1,445	1,667	1,506	1,791
Diluted weighted-average number of shares outstanding	81,250	81,849	81,415	81,772
Basic earnings per share	\$ 2.91	\$ 1.29	\$ 6.59	\$ 4.40
Diluted earnings per share	\$ 2.86	\$ 1.26	\$ 6.47	\$ 4.30

The computation of diluted earnings per share excludes stock options, warrants and stock units that are anti-dilutive. For the three months ended September 30, 2022, stock options, warrants and stock units representing common share equivalents of 7,843 shares were anti-dilutive. There were no such anti-dilutive common share equivalents during the three months ended September 30, 2021. For the nine months ended September 30, 2022 and 2021, stock options, warrants and stock units representing common share equivalents of 3,000 shares and 2,501 shares, respectively, were anti-dilutive.

NOTE 14 - NET CAPITAL AND REGULATORY REQUIREMENTS

The Company's registered broker-dealer, LPL Financial, is subject to the SEC's Uniform Net Capital Rule (Rule 15c3-1 under the Exchange Act), which requires the maintenance of minimum net capital. The net capital rules also provide that the broker-dealer's capital may not be withdrawn if the resulting net capital would be less than minimum requirements. Additionally, certain withdrawals require the approval of the SEC and FINRA to the extent they exceed defined levels, even though such withdrawals would not cause net capital to be less than minimum requirements. Net capital and the related net capital requirement may fluctuate on a daily basis. LPL Financial is a clearing broker-dealer and, as of September 30, 2022, had net capital of \$189.9 million, which was \$175.7 million in excess of its minimum net capital requirement of \$14.2 million.

The Company's subsidiary, PTC, also operates in a highly regulated industry and is subject to various regulatory capital requirements. Failure to meet minimum capital requirements can initiate certain mandatory and possible additional discretionary actions by regulators that, if undertaken, could have substantial monetary and non-monetary impacts on PTC's operations.

As of September 30, 2022 and December 31, 2021, LPL Financial and PTC met all capital adequacy requirements to which they were subject.

LPL FINANCIAL HOLDINGS INC. AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements (Unaudited)

**NOTE 15 - FINANCIAL INSTRUMENTS WITH OFF-BALANCE SHEET CREDIT RISK
AND CONCENTRATIONS OF CREDIT RISK**

LPL Financial may offer repayable loans to recruit or support the transition of an advisor to its platform. LPL Financial also offers forgivable loans for similar purposes that may convert to repayable loans upon advisor termination or agreed upon restructuring of terms. LPL Financial may incur losses if advisors do not fulfill their obligations with respect to these loans. To mitigate this risk, LPL Financial monitors the performance and creditworthiness of the advisor prior to offering repayable loans.

LPL Financial's client securities activities are transacted on either a cash or margin basis. In margin transactions, LPL Financial extends credit to the advisor's client, subject to various regulatory and internal margin requirements, which is collateralized by cash and securities in the client's account. As clients write options contracts or sell securities short, LPL Financial may incur losses if the clients do not fulfill their obligations and the collateral in the clients' accounts is not sufficient to fully cover losses that clients may incur from these strategies. To control this risk, LPL Financial monitors margin levels daily and clients are required to deposit additional collateral, or reduce positions, when necessary.

LPL Financial is obligated to settle transactions with brokers and other financial institutions even if its advisors' clients fail to meet their obligation to LPL Financial. Clients are required to complete their transactions on the settlement date, generally two business days after the trade date. If clients do not fulfill their contractual obligations, LPL Financial may incur losses. In addition, the Company occasionally enters into certain types of contracts to fulfill its sale of when-issued securities. When-issued securities have been authorized but are contingent upon the actual issuance of the security. LPL Financial has established procedures to reduce this risk by generally requiring that clients deposit cash or securities into their account prior to placing an order.

LPL Financial may at times hold equity securities on both a long and short basis that are recorded on the condensed consolidated statements of financial condition at market value. While long inventory positions represent LPL Financial's ownership of securities, short inventory positions represent obligations of LPL Financial to deliver specified securities at a contracted price, which may differ from market prices prevailing at the time of completion of the transaction. Accordingly, both long and short inventory positions may result in losses or gains to LPL Financial as market values of securities fluctuate. To mitigate the risk of losses, long and short positions are marked-to-market daily and are continuously monitored by LPL Financial.

NOTE 16 - SUBSEQUENT EVENTS

The Company's Board of Directors declared a cash dividend of \$0.25 per share on the Company's outstanding common stock to be paid on November 28, 2022 to all stockholders of record on November 10, 2022.

Item 3. Quantitative and Qualitative Disclosures About Market Risk**Market Risk**

We maintain trading securities and securities sold, but not yet purchased in order to facilitate client transactions, to meet a portion of our clearing deposit requirements at various clearing organizations, to track the performance of our research models and in connection with our dividend reinvestment program. Trading securities are included in Investment securities while securities sold, but not yet purchased are included in Other liabilities on the condensed consolidated statements of financial condition and can include mutual funds, debt securities and equity securities. Changes in the value of our trading securities may result from fluctuations in interest rates, credit ratings of the issuer, equity prices or a combination of these factors.

In facilitating client transactions, our trading securities and securities sold, but not yet purchased generally involve mutual funds, including dividend reinvestments. Our positions held are based upon the settlement of client transactions, which are monitored by our Trading and Operations (“Care”) department.

Positions held to meet clearing deposit requirements consist of U.S. government securities. The amount of securities deposited depends upon the requirements of the clearing organization. The level of securities deposited is monitored by the settlements group within our Care department.

Our Research department develops model portfolios that are used by advisors in developing client portfolios. We maintain trading securities in internal accounts based on these model portfolios to track the performance of our Research department. At the time a portfolio is developed, we purchase the securities in that model portfolio in an amount equal to the account minimum, which varies by product.

In addition, we are subject to market risk resulting from operational risk events, which can require customer trade corrections. We also bear market risk on the fees we earn that are based on the market value of advisory and brokerage assets, as well as assets on which trailing commissions are paid and assets eligible for sponsor payments.

As of September 30, 2022, the fair value of our trading securities was \$45.1 million and securities sold, but not yet purchased were \$0.1 million. The fair value of securities included within other assets was \$547.8 million as of September 30, 2022. See Note 5 - *Fair Value Measurements*, within the notes to the condensed consolidated financial statements for information regarding the fair value of investment securities; securities sold, but not yet purchased; and other assets associated with our client facilitation activities.

Interest Rate Risk

We are exposed to risk associated with changes in interest rates. As of September 30, 2022, \$1.0 billion of our outstanding debt was subject to floating interest rate risk. While our senior secured term loan is subject to increases in interest rates, we do not believe that a short-term change in interest rates would have a material impact on our net income given revenue generated by our client cash balances, which is generally subject to the same, but off-setting, interest rate risk.

The following table summarizes the impact of increasing interest rates on our interest expense from the variable portion of our debt outstanding, calculated using the projected average outstanding balance over the subsequent twelve-month period (in thousands):

	Outstanding Balance at September 30, 2022	Annual Impact of an Interest Rate ^(†) Increase of			
		10 Basis Points	25 Basis Points	50 Basis Points	100 Basis Points
Corporate Debt and Other Borrowings					
Term Loan B	\$ 1,040,575	\$ 1,034	\$ 2,585	\$ 5,169	\$ 10,339

(†) Our interest rate for Term Loan B is locked in for one, two, three, six or twelve months as allowed under the Credit Agreement. At the end of the selected periods the rates will be locked in at the then current rate. The effect of these interest rate locks are not included in the table above.

See Note 9 - *Corporate Debt and Other Borrowings, Net* within the notes to the condensed consolidated financial statements for additional information.

We offer our advisors and their clients two insured bank sweep vehicles, a client cash account (“CCA”) and various money market options, including money market accounts and the ability to participate in purchased money market funds, that are interest rate sensitive. Our sweep vehicles include an (1) insured cash account (“ICA”) for individuals, trusts, sole proprietorships and entities organized or operated to make a profit, such as corporations,

partnerships, associations, business trusts and other organizations and (2) an insured deposit cash account (“DCA”) for advisory individual retirement accounts. Clients earn interest on deposits in ICA and DCA while we earn a fee. The fees we earn from cash held in ICA are based primarily on prevailing interest rates in the current interest rate environment. The fees we earn from DCA are calculated as a per account fee, and such fees increase as the federal funds target rate increases, subject to a cap. Beginning in the third quarter of 2022, the Company places sweep overflow that cannot be allocated to ICA sweep product into the CCA. These deposits are either placed in third-party bank accounts or are invested in short-term U.S. treasury bills, both of which are segregated under federal or other regulations. We earn interest income on these bank deposits and investments in short-term U.S. treasury bills and pay interest to clients on these balances which are sensitive to prevailing interest rates. This interest income and expense is included in Interest income, net in the condensed consolidated statements of income. The fees we earn on cash balances in our advisors’ clients’ accounts in our money market product, including administrative and recordkeeping fees based on account type and the invested balances, are also sensitive to prevailing interest rates. Changes in interest rates and fees for the deposit sweep vehicles are monitored by our Rate Setting Committee (the “RSC”), which governs and approves any changes to our rates and fees. By meeting promptly around the time of Federal Open Market Committee meetings, or for other market or non-market reasons, the RSC considers financial risk of the deposit sweep vehicles relative to other products into which clients may move cash balances.

Credit Risk

Credit risk is the risk of loss due to adverse changes in a borrower’s, issuer’s or counterparty’s ability to meet its financial obligations under contractual or agreed upon terms. We are subject to credit risk from certain loans extended to our advisors as well as the activities of our advisors’ clients during the execution, settlement and financing of various transactions on behalf of these clients.

Credit risk from certain loans to advisors arises when we extend loans with repayment terms to facilitate advisors’ transition to our platform or to fund business development activities that are not repaid in full or on time. Credit risk also arises in respect of advisor loans when a forgivable loan converts to repayable upon advisor termination or agreed upon restructuring of terms.

In addition, credit risk arises when collateral posted with LPL Financial by clients to support margin lending or derivative trading is insufficient to meet clients’ contractual obligations to LPL Financial. These activities are transacted on either a cash or margin basis. Our credit exposure in these transactions consists primarily of margin accounts, through which we extend credit to advisors’ clients collateralized by securities in the clients’ accounts. Under many of these agreements, we are permitted to sell, repledge or loan these securities held as collateral and use these securities to enter into securities lending arrangements or to deliver to counterparties to cover short positions.

As our advisors execute margin transactions on behalf of their clients, we may incur losses if clients do not fulfill their obligations, the collateral in the clients’ accounts is insufficient to fully cover losses from such investments and our advisors fail to reimburse us for such losses. Our losses on margin accounts were immaterial during the three and nine months ended September 30, 2022 and 2021. We monitor exposure to industry sectors and individual securities and perform analyses on a regular basis in connection with our margin lending activities. We adjust our margin requirements if we believe our risk exposure is not appropriate based on market conditions.

We are subject to concentration risk if we extend large loans to or have large commitments with a single counterparty, borrower or group of similar counterparties or borrowers (e.g., in the same industry), or if we accept a concentrated position as collateral for a margin loan. Receivables from and payables to clients and stock borrowing and lending activities are conducted with a large number of clients and counterparties and potential concentration is monitored. We seek to limit this risk through review of the underlying business and the use of limits established by senior management, taking into consideration factors including the financial strength of the counterparty, the size of the position or commitment, the expected duration of the position or commitment and other positions or commitments outstanding.

Operational Risk

Operational risk is defined as the risk of loss resulting from failed or inadequate processes or systems, actions by people or external events. We operate in diverse markets and are reliant on the ability of our employees and information technology systems, as well as third-party service providers and their systems, to manage a large volume of transactions and confidential information, including personally identifiable information, effectively and securely. These risks are less direct and quantifiable than credit and market risk, but managing them is critical, particularly in a rapidly changing operating environment with increasing transaction volumes and in light of

increasing reliance on systems capabilities and performance, as well as third-party service providers. In the event of the breakdown, obsolescence or improper operation of systems, malicious cyber activity or improper action by employees, advisors or third-party service providers, we could suffer business disruptions, financial loss, data loss, regulatory sanctions and damage to our reputation. Although we have developed business continuity and disaster recovery plans, those plans could be inadequate, disrupted, incomplete or otherwise unsuccessful in maintaining the competitiveness, stability, security or continuity of critical systems as a result of, among other things, obsolescence, improper operation, third-party dependencies or limitations of our current technology.

In order to assist in the mitigation and control of operational risk, we have an enterprise risk management (“ERM”) framework that is designed to enable assessment and reporting on operational risk across the firm. This framework aims to ensure policies and procedures are in place and appropriately designed to identify and manage operational risk at appropriate levels throughout our organization and within various departments. These control mechanisms are designed to ensure that operational policies and procedures are being followed and that our employees and advisors operate within established corporate policies and limits. Please consult the “*Risks Related to Our Technology*” and the “*Risks Related to Our Business and Industry*” sections within Part I, “*Item 1A. Risk Factors*” in our 2021 Annual Report on Form 10-K for more information about the risks associated with our technology, including risks related to security, our risk management policies and procedures, and the potential related effects on our operations.

Our senior management is continuing to monitor developments in the COVID-19 pandemic and has implemented changes to our policies, procedures and operations to protect the integrity and continuity of our business and the health and safety of our employees. For example, we equipped and enabled a substantial majority of employees to work remotely, implemented enhanced cleaning protocols throughout our corporate offices and worked closely with our vendors to maintain service continuity throughout the market volatility and increased operational volumes that have occurred from time to time during the pandemic. We also made extra support available to our advisors by extending service hours and providing additional resources to enable them to deliver services to clients. There can be no guarantee that our business continuity plans and the other efforts to manage the business implications of COVID-19 will be effective, or that there will not be material adverse effects on our results of operations. Please consult Part I, “*Item 1A. Risk Factors*” in our 2021 Annual Report on Form 10-K for more information about the risks associated with the COVID-19 pandemic.

Regulatory and Legal Risk

The regulatory environment in which we operate is discussed in detail within Part I, “*Item 1. Business*” in our 2021 Annual Report on Form 10-K. In recent years, and during the periods presented in this Quarterly Report on Form 10-Q, we have observed the SEC, FINRA, U.S. Department of Labor and state regulators broaden the scope, frequency and depth of their examinations and inquiries to include greater emphasis on the quality, consistency and oversight of our compliance systems and programs. Please consult the “*Risks Related to Our Regulatory Environment*” and the “*Risks Related to Our Business and Industry*” sections within Part I, “*Item 1A. Risk Factors*” in our 2021 Annual Report on Form 10-K for more information about the risks associated with operating within our regulatory environment, pending regulatory matters and the potential related effects on our operations.

Risk Management

We employ an ERM framework that is intended to address key risks and responsibilities, enable us to execute our business strategy and protect our Company and its franchise. For a discussion of our ERM framework, please see the “*Risk Management*” section within Part II, “*Item 7A. Quantitative and Qualitative Disclosures About Market Risk*” in our 2021 Annual Report on Form 10-K.

Item 4. Controls and Procedures**Evaluation of Disclosure Controls and Procedures**

Management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act, as of the end of the period covered by this report. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of the end of the period covered by this report were effective.

Change in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during the third quarter ended September 30, 2022 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION**Item 1. Legal Proceedings**

From time to time, we have been subjected to and are currently subject to legal and regulatory proceedings arising out of our business operations, including lawsuits, arbitration claims, and inquiries, investigations and enforcement proceedings initiated by the SEC, FINRA and state securities regulators, as well as other actions and claims. See Note 10 - *Commitments and Contingencies*, within the notes to the condensed consolidated financial statements for additional information.

Item 1A. Risk Factors

There have been no material changes in the information regarding the Company's risks, as set forth under Part I, "Item 1A. Risk Factors" in the Company's 2021 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The table below sets forth information regarding repurchases, reported on a trade date basis, during the three months ended September 30, 2022:

Period	Total Number of Shares Purchased	Weighted-Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Approximate Dollar Value of Shares That May Yet Be Purchased Under the Program (millions) ⁽¹⁾
July 1, 2022 through July 31, 2022	177,812	\$ 184.62	177,812	126.9
August 1, 2022 through August 31, 2022	123,527	\$ 223.20	123,527	99.4
September 1, 2022 through September 30, 2022	64,340	\$ 227.04	64,340	2,150.0
Total	<u>365,679</u>		<u>365,679</u>	

(1) On September 21, 2022, the Board of Directors authorized a \$2.1 billion increase to the amount available for repurchases of the Company's issued and outstanding common shares with \$2.0 billion available for repurchases beginning in 2023. See Note 11 - *Stockholders' Equity*, within the notes to the condensed consolidated financial statements for additional information.

The repurchases may be executed from time to time, subject to general business and market conditions and other investment opportunities, through open market purchases or privately negotiated transactions, including transactions with affiliates, with the timing of purchases and the amount of shares purchased generally determined at the discretion of the Company within the constraints of the Credit Agreement, the Indentures, applicable laws and consideration of the Company's general liquidity needs.
