## \*Notice to Investors: Non-GAAP Financial Measures

---

Adjusted EPS, adjusted net income, gross profit, core G&A, EBITDA, adjusted EBITDA and adjusted pre-tax income are non-GAAP financial measures. Management believes that presenting certain non-GAAP financial measures by excluding or including certain items can be helpful to investors and analysts who may wish to use this information to analyze the Company's current performance, prospects and valuation. Management uses this non-GAAP information internally to evaluate operating performance and in formulating the budget for future periods. Management believes that the non-GAAP financial measures and metrics discussed below are appropriate for evaluating the performance of the Company.

Gross profit is calculated as total revenue less advisory and commission expense; brokerage, clearing and exchange expense; and market fluctuations on employee deferred compensation. All other expense categories, including depreciation and amortization of property and equipment and amortization of other intangibles, are considered general and administrative in nature. Because the Company's gross profit amounts do not include any depreciation and amortization expense, the Company considers gross profit to be a non-GAAP financial measure that may not be comparable to similar measures used by others in its industry. Management believes that gross profit can provide investors with useful insight into the Company's core operating performance before indirect costs that are general and administrative in nature. For a calculation of gross profit, please see page 4 of this presentation.

Adjusted EPS is defined as adjusted net income, a non-GAAP measure defined as net income (loss) plus the after-tax impact of amortization of other intangibles, acquisition costs and certain regulatory charges, losses on extinguishment of debt, and amounts related to the departure of the Company's former Chief Executive Officer, divided by the weighted average number of diluted shares outstanding for the applicable period. The Company presents adjusted net income and adjusted EPS because management believes that these metrics can provide investors with useful insight into the Company's core operating performance by excluding non-cash items, acquisition costs and certain other charges that management does not believe impact the Company's ongoing operations. Adjusted net income and adjusted EPS are not measures of the Company's financial performance under GAAP and should not be considered as alternatives to net income (loss), earnings (loss) per diluted share or any other performance measure derived in accordance with GAAP. For a reconciliation of net income (loss) and earnings (loss) per diluted share to adjusted net income and adjusted EPS, please see page 5 of this presentation.

Core G&A consists of total expense less the following expenses: advisory and commission; depreciation and amortization; interest expense on borrowings; brokerage, clearing and exchange; amortization of other intangibles; market fluctuations on employee deferred compensation; losses on extinguishment of debt; promotional (ongoing); transition assistance ("TA") loan amortization; employee share-based compensation; regulatory charges; and acquisition costs. Management presents core G&A because it believes core G&A reflects the corporate expense categories over which management can generally exercise a measure of control, compared with expense items over which management either cannot exercise control, such as advisory and commission, or which management views as promotional expense necessary to support advisor growth and retention, including conferences and transition assistance. Core G&A is not a measure of the Company's total expense as calculated in accordance with GAAP. For a reconciliation of the Company's total expense to core G&A, please see page 4 of this presentation. The Company does not provide an outlook for its total expense because it contains expense components, such as advisory and commission, that are market-driven and over which the Company cannot exercise control. Accordingly a reconciliation of the Company's outlook for total expense to an outlook for core G&A cannot be made available without unreasonable effort.

EBITDA is defined as net income (loss) plus interest expense on borrowings, provision for (benefit from) income taxes, depreciation and amortization, and amortization of other intangibles. Adjusted EBITDA is defined as EBITDA, a non-GAAP measure, plus acquisition costs, certain regulatory charges, amounts related to the departure of the Company's former Chief Executive Officer, and losses on extinguishment of debt. The Company presents EBITDA and adjusted EBITDA because management believes that they can be useful financial metrics in understanding the Company's earnings from operations. EBITDA and adjusted EBITDA are not measures of the Company's financial performance under GAAP and should not be considered as alternatives to net income (loss) or any other performance measure derived in accordance with GAAP. For a reconciliation of net income (loss) to EBITDA and adjusted EBITDA, please see page 5.

Adjusted pre-tax income is defined as income (loss) before provision for (benefit from) income taxes plus amortization of other intangibles, acquisition costs, certain regulatory charges, amounts related to the departure of the Company's former Chief Executive Officer, and losses on extinguishment of debt. The Company presents adjusted pre-tax income because management believes that it can provide investors with useful insight into the Company's core operating performance by excluding non-cash items, acquisition costs, and certain other charges that management does not believe impact the Company's ongoing operations. Adjusted pre-tax income is not a measure of the Company's financial performance under GAAP and should not be considered as an alternative to income (loss) before provision for (benefit from) income taxes or any other performance measure derived in accordance with GAAP. For a reconciliation of income (loss) before provision for (benefit from) income taxes to adjusted pre-tax income, please see page 5.

Endnotes

- (1) During the fourth quarter of 2025, the Company updated its definition of promotional (ongoing) to exclude transition assistance loan amortization. As a result, transition assistance loan amortization is now disclosed as a separate line in Management's Statement of Operations and Core G&A. Prior period disclosures have been updated to reflect these changes as applicable.
- (2) Gross profit for the three months ended December 31, 2024 includes other income of \$26.4 million related to the departure of the Company's former Chief Executive Officer and related clawback of share-based compensation awards.
- (3) Regulatory charges for the three months ended September 30, 2024 include charges related to a settlement with the SEC to resolve the civil investigation of certain elements of the Company's Anti-Money Laundering ("AML") compliance program. The Company has recorded an \$18.0 million charge for the quarter ended September 30, 2024 and reached a settlement with the staff of the SEC and paid the civil monetary penalty in January 2025.
- (4) The departure of the Company's former Chief Executive Officer resulted in other income of \$26.4 million related to the clawback of share-based compensation awards which was offset by share-based compensation expense of \$12.0 million related to the modification of certain stock options that were retained as per the settlement agreement that the Company reached with the former Chief Executive Officer.
- (5) Represents a fair value adjustment to our contingent consideration liabilities that is reflected in other expense in the consolidated statements of income.
- (6) Consists of total advisory and brokerage assets under custody at the Company's primary broker-dealer subsidiary, LPL Financial, as well as assets under custody of a third-party custodian related to Commonwealth Equity Services, LLC and Atria Wealth Solution, Inc.'s ("Atria") introducing broker-dealer subsidiaries.
- (7) Consists of advisory assets in LPL Financial's Model Wealth Portfolios, Optimum Market Portfolios, Personal Wealth Portfolios and Guided Wealth Portfolios platforms.
- (8) Assets on the Company's corporate advisory platform are serviced by investment advisor representatives of LPL Financial. Assets on the Company's independent RIA advisory platform are serviced by investment advisor representatives of separate registered investment advisor firms rather than representatives of LPL Financial.
- (9) Organic net new assets include assets that off-boarded as part of the previously disclosed planned separation from misaligned large OSJs. In Q3 2024, there were \$6.3B of assets that off-boarded, including \$0.6B in July, \$3.8B in August and \$1.9B in September.
